

# 2014 May Security Seminar

Speaker: **Matt Halbleib**, Sr. Qualified Security Assessor, SECURITYMETRICS

**“PCI Compliance and Version 3.0”**

Payment Card Industry (PCI) Data Security Standard, Requirements and Security Assessment Procedures Version 3.0, was released in November 2013. Matt will discuss the key changes including those in the physical security requirements, some information from compromises his forensic teams have investigated, and some common problems they encounter with clients.

Speaker: **Darrell Switzer**, Managing Consultant, Incident Management Practice, FISHNET SECURITY

**“What Lurks in Your Networks”**

Threats are evolving faster than current security defenses. Organized and often well-funded criminals are after the money and Nation-States are after the intelligence. Darrell will provide an overview of what his incident management team is seeing in the wild and how highly performing organizations are combating today's targeted threats. He will address the problems, targets, victims, motivations, breach and response metrics, whether you have been breached, and what do I do about it. He will also provide key concepts for combating modern threats.

Speaker: **David Figge**, President, ELF WORKS INC.

**“What’s On the Horizon with Physical Security?”**

David describes the current and emerging trends in physical security regarding access control, badging, and video surveillance. He will approach this topic from the point of view of the user and will cover both the technologies and the impacts it will have in commercial security settings.

**When:** Thursday, May 8<sup>th</sup>, 2014; 9:00 am – 1:00 pm (check-in starts at 8:30 am)

**Cost:** ISSA and ISACA members: \$35, Non-members: \$50, limited seating – register today!
