

CISSP Test Preparation Training

Time to get Certified? Considered one of those CISSP Boot Camp training programs, but found the cost, and travel are big problems? How about “world class” training right here in Salt Lake City! The ISSA-Utah Chapter is proud to sponsor this valuable Training program.

Faculty:

Thomas R. Peltier is the president of Thomas R. Peltier Associates, and founder of the Southeast Michigan Computer Security Special Interest Group, and has taught the information security curriculum for a master's certificate at Eastern Michigan University. Prior to this, Peltier was director of policies and administration for Netigy Corporation's Global Security Practice. At CyberSafe Corporation, Peltier was the national director for consulting services. While employed at Detroit Edison, Tom implemented the development of a corporate information protection program that was recognized for excellence in the field of computer and information security by winning the CSI's Information Security Program of the Year for 1996. Peltier has also served as president at Blaier & Associates, as an information security specialist for General Motors Corporation, as an information security officer for the Chevrolet-Pontiac-Canada Group and in various positions at the Chevrolet Engineering Center.

John G. O'Leary, CISSP, is President of O'Leary Management Education. His background spans four decades as an active practitioner in information systems, IT Security and contingency planning. He has designed, implemented and managed security and recovery for networks ranging from single site to multinational. John has trained tens of thousands of practitioners, and conducted on-site programs at major corporations and government facilities worldwide. He has also facilitated meetings of Working Peer Groups, where security professionals from diverse corporations share ideas, concerns and techniques. John was the recipient of the 2004 COSAC award and the 2006 EuroSec Prix de Fidelite.
